

Entrust 5-9-24 – Christ our Counselor

1. Intro

"I've been practicing psychiatry for 38 years, and I absolutely love my job. I love my patients, my professional colleagues, and my coworkers. I couldn't be happier with the work that I've chosen. But I have come to the conclusion that I am participating in the biggest scientific scam of this era. Many billions of dollars are spent each year in an industry built on a corrupt body of pseudoscience, that has been maintained and exploited by monied interests for decades. This audacious scientific fraud has been more successful than any other of our day. The assumptions of the general public are that we psychiatrists have a good understanding of how the brain works; that we can diagnose distinct disease states, of which we have some pathophysiological knowledge; and that we can prescribe treatments, usually medications, with full awareness of how it is that they benefit us. But every one of these assumptions is unequivocally and demonstrably false."

2. A False Anthropology

- a. Reductionistic Darwinian understanding of humanity:
- b. The chemical imbalance theory is a direct result of this Darwinian and Kraepelinian belief system.
- c. Medication

Dr. Peter Breggin, said this, "Some drugs are used to treat depression on the theory that they enhance serotonergic neurotransmission; but in reality they cause extreme imbalances in the system, including a relative compensatory shutdown of the serotonergic neurotransmission... this is especially true of the most widely used antidepressant, Prozac, which has recently been implicated as a potential cause of murderous and suicidal acts." (Peter Breggin, Toxic Psychiatry.)

“The Chemical Imbalance Delusion” by Dr. Daniel Berger II

3. A Biblical Response

a. People Suffer

b. Biblical Arthrology

i. Mankind is made up of a body and soul/mind/spirit/heart. Our minds effect our bodies. And our bodies can effect our hearts.

1. Ps 32:3-4
2. Prov 3:7-8
3. 2 Cor 1:8-10

c. Christ is our only hope for the sorrow and suffering of this life.

i. 2 Peter 1:2-4

ii. Eph 1:3, 11-14

iii. John 14:1-3

iv. John 14:16-18, 26-27

v. John 16:33

vi. Phil 4:4-9

vii. Ps 46:1-3

viii. 2 Cor 4:16-18

4. Conclusion

a. Why are we so taken by modern man-made theories?

b. 2 Tim 3:16-4:4
